

HARSHITHA C

Software Developer — Java & Full Stack

Mysore, India — +91 8970361875 — harshithac0512@gmail.com
linkedin.com/in/harshitha-c2605 — github.com/Harshitha0501

PROFESSIONAL SUMMARY

Software Developer with a B.E. in Electronics and Communication Engineering and hands-on experience building full-stack applications using Java, Spring Boot, React, REST APIs, and MySQL. Developed an employee management system with role-based access, a URL shortening service, and a career analysis platform. Completed a 3-month software development internship working on a patent search and clustering application and contributed to a freelance e-commerce project. Seeking a software development role focused on Java and full-stack application development.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript, Python

Backend: Spring Boot, Spring MVC, Spring Security, JDBC, FastAPI, REST APIs

Frontend: React, HTML, CSS, Bootstrap

Databases: MySQL, MongoDB, H2

Tools: Git, GitHub, Docker, Maven, Postman, Eclipse, VS Code, Microsoft Office

WORK EXPERIENCE

Freelance Full Stack Developer – Freelance

2025

E-commerce Website for Pre-Startup Client

Remote

- Developed approximately 70% of an e-commerce web application using Java, Spring Boot, React, REST APIs, and MySQL.
- Built core product catalog, shopping cart, checkout, user account, and order management features with CRUD operations and database integration.
- Implemented Admin and Customer roles with role-based access control for application features and workflows.
- Worked directly with the client on requirements, feature development, API integration, debugging, and assigned scope delivery within 2 months.

Software Developer Intern – Sigvitas & Company

Oct 2024 – Dec 2024

Software Development Intern

Mysore, Karnataka

- Developed frontend and backend features for a patent search and clustering application, contributing to 3+ key application modules.
- Integrated 5+ REST API workflows and resolved frontend-backend integration issues during development.
- Fixed cross-browser compatibility issues to improve application usability.
- Worked with Java, Spring Boot, React, and REST APIs across application development tasks.

PROJECTS

StaffHub – Employee Management System — GitHub

- Developed a full-stack employee management system supporting Admin, HR, and Employee roles.
- Implemented attendance, leave, payroll, tasks, employee management, role-based access control, and REST APIs.
- Used Java, Spring Boot, Spring Security, JPA, H2, and JavaScript; deployed the application for live testing.

URL Shortener — GitHub

- Developed a URL shortening service using Spring Boot and REST APIs with a web interface for creating and managing shortened URLs.
- Implemented CRUD operations, database integration, API endpoints, and Docker containerization.
- Used Java, Spring Boot, REST APIs, MySQL, and Docker.

SkillGap AI — GitHub

- Built a career analysis platform providing job matching, missing-skill analysis, career roadmaps, and interview preparation.
- Implemented rule-based scoring across 5+ job roles and connected a React frontend with FastAPI REST APIs.
- Used React, FastAPI, MongoDB, and JavaScript; deployed the application for live use.

EDUCATION

Vidya Vikas Institute of Engineering and Technology, Mysore

B.E. in Electronics and Communication Engineering

Aug 2019 – Jun 2023

CGPA: 7.16/10

CERTIFICATIONS

HackerRank – Software Engineer

HackerRank – SQL (Intermediate)
